

Hand Cleaner

Used full strength, Oil Muncher will remove dirt, grease, and simple paints. It is odorless and non-irritating. Oil Muncher is completely miscible and free rinsing with water. It is safe to use on face, hair, and all extremities. It leaves the skin clean and soft though a mild defatting may occur with repeated use. Oil Muncher is an excellent cleaner for the hands of mechanics, oil field workers and any other person whose hands are extremely dirty or stained. Use a lanolin hand lotion to restore natural fats to the skin after prolonged use.

Just rub the full strength Oil Muncher into the skin, add a little water and rub. Allow a few seconds before rinsing thoroughly. This may be repeated, if necessary. Also, before beginning a greasy or dirty job, rub Oil Muncher into hands. This will keep the skin from absorbing most oils, grease and grim making cleaning easier and quicker.
